

If I Saw You Again

Pages

Once in a while in a flash of light
I can still see you fading in the light
 Tell me
 Where are you going
 Where have you been
I'd still adore you if I saw you again
 If I saw you
 If I saw you again
 If I saw you, if I saw you
 I would adore you then
 Years ago we were here
 Now you're a world away
And I've been lost in an empty stare
 Thinkin' bout yesterday
 If I saw you
If I saw you again (you know I'd love to see you)
 If I saw you, if I saw you again
 If I saw you again
 I would hold you
 Never let you go
 Through the endless night,
And we'd discover as brand new lovers
 What we have is right
 If I saw you
If I saw you again (There wouldn't be a shadow hangin' over me)
If I saw you, if I saw you again (I've got so many things to say to you baby)
 If I saw you, if I saw you
 You know I'd love you then
