

# Kill Shot

## Genuflect

This is a story for the glory of the whole world  
Preying off of a prayer  
Theres no future living life in the past  
Theres no savior  
Theres nobody there  
All we got is a lifeline  
For once in a lifetime Ive found the truth  
Because they stabbed me in the back like a fucking rat  
They said, Now, what ya gonna do?  
And I said Get outta my face  
Outta my way  
On account of blind faith take the kill shot  
Murder on a Sunday  
Watch 'em all drop  
Down goes another life Had a couple good times and double the hood times  
Its time to bruise  
I cant believe the way that people can be so two faced and so removed  
Everybodys got a mask to slide on to hide from the painful truth  
But when they stab you in the back like a fucking rat  
And say Now, what ya gonna do?  
Then you say Get outta my face  
Outta my way  
On account of blind faith take the kill shot  
Murder on a Sunday  
Watch 'em all drop  
Down goes another life Pushing and shoving and beating us  
Pushing and shoving and bleeding us  
Pushing and shoving and leaving us bloody  
Away we go  
Slicing and cutting, the blood will come running  
Away we go  
Ripping and gutting and beating us bloody  
And here we go now  
Pushing and shoving and leaving us down  
Tearing and cutting and bleeding us out  
Pushing and shoving and tearing and cutting  
The blood will all come running out Take the kill shot Down goes another life
