

# Dream of Me

Anggun

Hembusan bayu antar dirimuLet me be the blue inside  
Of the flame that you feel  
The heat to hold on till you are near  
Biarkan kujadi mentariKeep me in your smile so sweet  
When you turn off the light  
And we'll be together in all our nights  
Dan kuhangatkan semua mimpiDream of me  
Before you go I'll show you just how  
I'll make you dream of me  
Till night is overDream of me  
Just a breath away in the dark  
I'll make you dream of me  
Come to me nowWe move so free and easy  
Just like it should be  
Just you, can give me all that I need  
Hanya dirimu yang kunantiI'll fly, find my way back to you  
In your deepest hours of sleep  
A nightride to my favourite fantasy  
Semua keinginan hatiDream of me  
Before you go, I'll show you just how  
I'll make you dream of me  
Till night is overDream of me  
Just a breath away in the dark  
I'll make you dream of me  
Come to me nowMy desire never ends  
Will you meet me where the shadows blend?  
Light the stars up in my sky  
Got to know that you are still mineDream of me  
Before you go, I'll show you just how  
I'll make you dream of me  
Till night is overDream of me  
Just a breath away in the dark  
I'll make you dream of me  
Come to me nowTake me with you when you go  
When you get so lonely and so cold  
Hold on to me every night  
Close your eyes, let your love go flying  
Let your love go flying
