

Ya Know (feat. the Internet)

Odd Future

She's all alone
With a bottle of patron
I see you
And ask you where you're from
But she tells me just to stop right there
'Cause I'm not gone get no ass, so I'm on my way
But a few more drinks and she returns
Don't know what she's saying her speech is slurred
So I grabbed her waist
And I look you in your eyes Ya know that I'm horny baby
Know that I'm horny baby
Dance with you, dance with you
Ya know that I'm horny baby
Know that I'm horny baby
Dance with you, just you, only you You're safe with me
So don't be scared (Just come this way)
The bedroom, lets go upstairs (Just come this way)
United we can form as one
I just wanna feel ya' touch, then I'm on my way
But I think I'm starting to like this girl
Or maybe I'm just twisted
So I'll ask her to stay
And I look you in your eyes Ya know that I'm horny baby
Know that I'm horny baby
Dance with you, dance with you
Ya know that I'm horny baby
Know that I'm horny baby
Dance with you, just you, only you Ya know that I'm horny baby
Know that I'm horny baby
Dance with you, dance with you
Ya know that I'm horny baby
Know that I'm horny baby
Dance with you, just with you Do you wanna have some fun
Do you wanna have some fun
Do you wanna have some fun
Do you wanna have some fun
