White Light

Twiddle

The great white light
That burns for us
It leads us on
It makes us trust
It shows us love
And drips with pain
Allows us all to feel the word
Allows us all to make a change
I can see your light
This is my gift
So many people burning down
So many people need a lift
It starts with one big smile
And grows with every laugh
With every hug and kiss and high-five
Keeps the light from holding back
So give your light some love
Fill your love with sound
Give that sound a little light life from the sky straight to the ground
And let it heal heart
Your heart will free your mind
Take the negative input and flip it upside-down
Cuz when we let our pain
Run free to grow and rage
It burns a little of our light out
Every single day
Allow yourself to breathe
Kick back relax and dream
So many good things come to those who love relentlessly
A global plight
First fear and strife
World-wide test
To do what's right
We will live on
Yes this I know
There's so much cruel unjust around us
Only strengthens our resolve
We need to feed the flame
That burns inside our souls

Unleash the great white light inside us
Let it explode into the world
Cuz we all have strength
And we all feel pain
It only matters how we use it
Let it heal our global strain
So give your light some love
Fill your love with sound
Give that sound a little life from the sky straight to the ground
And let it heal heart
Your heart will free your mind
Take the negative input and flip it upside-down
Cuz when we let our pain
Run free to grow and rage
It blows a little of our light out
Every single day
Allow yourself to breathe
Kick back relax and dream
So many good things come to those who love relentlessly
