

# Lie To Me

## Breaking Benjamin

No named bars dead end stars  
Empty roads to nowhere  
Unlocked cars life's so far  
There's no here to get there As fast as I run  
Could you catch me for once  
It's the last time, I learn my lesson the hard way Because you lost,  
Because I just love to hate you  
Because you lost me Cold and clean, perfect dream  
I don't ever want them  
Hand me down, white washed town  
Another bully anthem As fast as I run  
Could you catch me for once  
It's the last time I learn my lesson the hard way Because you lost  
Because I just love to hate you  
Because you lost me You lost  
You lie to me  
You lie  
You lie to me  
You lie  
You lie to me As fast I run  
Could you catch me for once  
It's the last time I learn my lesson the hard way Because you lost  
Because I just love to hate you  
Because you lost me You lost  
Because I just love to hate  
Because you lost me
