

Miss Moneypenny

Placebo

Penance for his sin, he locked it in for just a little while
Lubricating creams, sanitariums would only cramp his style
It's a dirty job but shooting guns just makes you horny
Wants to spill his seed on guaranteed, service with a smile. Miss Moneypenny
Miss Moneypenny
Oh
Miss Moneypenny
Miss Moneypenny
Oh Pitter patter of the eyelid on the first roll of the dice
Feel the atmosphere, it's gently laced with nicotine and spice
It's a long walk home, the entrance of the night is scary
Only trouble is, he never learned to shoot the same gun twice Miss Moneypenny
Miss Moneypenny
Oh
Miss Moneypenny
Miss Moneypenny
Oh Every job he saves the girl
Martini, mobile phone
Bastards getting in his way
They're all pushing daisies
All you need to make a movie is a gun and a girl 0898 007 [repeat]
