Couldn't Help It

Couldn't help it lyricsTo my sweetest lover
Please don't find another
Don't wanna face this on my ownDon't' wanna face the pain
If you would cut the chain
It would kill the greatest love I've known(Chorus)
I can't help it baby
It would make me cry
I couldn't help it baby
If you said goodbyeDays get stranger baby
Feel the danger maybe
You started having second thoughtsNow I'm medicated
Mmm it gets agitated
And in your eyes I know I'm lost(chorus) X 2
I can't help it baby
It would make me cry
I couldn't help it baby
If you said goodbyeTime to break the habit
It's a tough combatant
But I can beat it if I tryI'll sharpen all my wits
I'll reel in all of this
If you just stay here by my side(chorus)
I can't help it baby
It would make me cry
I couldn't help it baby
If you said goodbyeI couldn't help it baby, if you said goodbye.
