

# Put Your Dukes Up John (cover The Little Flames)

## Arctic Monkeys

Well, just put your dukes up John  
May I put your dukes up John  
You were preened and sanitized  
Struck dumb by good advice Your integrity was bruised  
Your celebrity a ruse  
They pulled the rug from under  
Made way for new pretenders Change your tune and change your hair  
Or youre not going anywhere  
Change your tune and change your hair  
Or youre not going anywhere And be a C Y N I C  
And be a C Y N I C The profit margin blinds them  
They groomed and ostracized him  
His calm makes my blood boil  
His calm makes my blood boil Change your tune and change your hair  
Or youre not going anywhere  
Change your tune and change your hair  
Or youre not going anywhere And be a C Y N I C  
Be a C Y N I C Change your tune and change your hair  
Or youre not going anywhere  
Change your tune and change your hair  
Or youre not going anywhere Change your tune and change your hair  
Or youre not going anywhere  
Change your tune and change your hair  
Or youre not going anywhere Change your tune and change your hair  
Or youre not going anywhere  
Change your tune and change your hair  
Or youre not going anywhere Change your tune and change your hair  
Or youre not going anywhere  
Change your tune and change your hair  
Or youre not going anywhere
