

Pink Lemonade

The Peppermint Rainbow

Pink lemonade two straws in a glass
that glitters just like the sun
Pink lemonade with a red submarine
floating round for two but makes us one

Pink lemonade into crystals I gaze
takes me into love's masquerade
And as we sip the glass rose that we reap
Let the sweet taste of love never fade

You take my hand we walk towards the sun
right through a tunnel where bubbles are run
When I'm with you one glass will do
of pink lemonade
of pink lemonade

Pink lemonade two straws in a glass
that glitters just like the sun
Pink lemonade with a red submarine
floating round for two but makes us one

I have never felt so great
Loving you is more than fate
It's pink lemonade
It's pink lemonade
It's pink lemonade
