So, are you breathing?
So, are you breathing?
No, no
Are you breathing?
So, are you breathing?
NoWake up, are you alive
Will you listen to me
I'm gonna talk about some freaky shit now
Someone is gonna die
When you listen to me
Let the living die, let the living die
Say
Wake up, are you alive
Will you listen to me
I'm gonna talk about some freaky shit now
Someone is gonna die
When you listen to me
Let the living die, let the living die
SayAre you breathing, no
Do the wicked see you
You still breathing
You're making me known
Are you breathing, no
Do the wicked see you
You still breathingSo
What's up, I wonder why
Did you listen to me
I'm gonna make you do some freaky shit now
Insane, you're gonna die
When you listen to me
Let the living die, let the living dieSay
What's up, I wonder why
Do you listen to me
I'm gonna make you do some freaky shit now
Insane, you're gonna die
When you listen to me
Let the living die, Let the living die
SayAre you breathing, no
Do the wicked see you

You still breathing
You're making me known
Are you breathing, no
Do the wicked see you
You still breathingSoCan you imagine how good going through this will make you feel
I promise, no one will ever know
There will be no chance of you getting caught
They never loved you anyway
So come on, be a man and do what you are compelled to do
Save me god!I can hear the voice
But I don't want to listen
Strap me down and tell me
I'll be alrightI can feel the subliminal need
To be one with the voice
And make everything al...I can hear the voice
But I don't want to listen
Strap me down and tell me
I'll be alrightI can feel the subliminal need
To be one with the voice
And make everything alrightAre you breathing, no
Do the wicked see you
You still breathing
You're making me known
Are you breathing, no
Do the wicked see you
You still breathingSo, are you breathing?
So, do you breathe no, no?
So, are you breathing?
So, do you breathe no?
