

# I Wish You Well

[Anna Waronker](#)

I wish you well  
Couldn't you tell after all these years?  
I wish you love  
And life in a world that you're dreaming of I wish you well, I wish you love  
I wish myself all of the above What made me think?  
That I could survive all the wear and tear  
It's not my thing  
To stand here and pose for some William Tell I wish you well, I wish you love  
I wish myself all of the above If there was a better time I could not find it  
What's mine's not yours and yours not mine and we couldn't hide it  
Don't take me on the ride with you, it's a roller coaster  
The only time I'd look at you was on a rock and roll poster Where are you now?  
Couldn't you see through the sweat and tears?  
I took my bow  
While you confirmed all my saddest fears I wish you well, I wish you love  
I wish myself all of the above If there was a better time I could not find it  
What's mine's not yours and yours not mine and we couldn't hide it  
Don't take me on the ride with you, it's a roller coaster  
The only time I'd look at you was on a rock and roll poster I wish you well, I wish you love  
I wish myself the world I'm dreaming of I wish you well, I wish you love  
I wish myself all of the above, all of the above  
All of the above, all of the above
