

Vacuum

In Flames

The yesterday we loved
Speaks of tomorrow
The blood of man matters in time
Never taste the puss We live from Monday to Sunday
But forget what it means
Then it comes, a closed fist
And we just started from Devil's rights Well call all your friends
Watch me throw down
From the need of vacation
We're speeding from triple hate and artifacts We're still superiors
And as for understanding
Lie, rape, steal and murder
To make the night realize Crush the system
Make your contributions mine
Pour out and will you get
This strong as they've become You sat in silence, hear a voice
How far are we ready to take this
You sat in silence, hear a voice
Before it all crumbles Lie, rape, steal and murder
Smiling I plot your pain
Can I turn up the TV?
Exploding sympathy, farewell man
I trust we part our company We're still superiors
And as for understanding
Lie, rape, steal and murder
To make the night realize Crush the system
Make your contributions mine
Pour out and will you get
This strong as they've become You sat in silence, hear a voice
How far are we ready to take this
You sat in silence, hear a voice
Before it all crumbles Lie, rape, steal and murder
Smiling I plot your pain You sat in silence, hear a voice
How far are we ready to take this
You sat in silence, hear a voice
Before it all crumbles
