Vacuum

In Flames

The yesterday we loved Speaks of tomorrow

The blood of man matters in time

Never taste the pussWe live from Monday to Sunday

But forget what it means

Then it comes, a closed fist

And we just started from Devil's rightsWell call all your friends

Watch me throw down

From the need of vacation

We're speeding from triple hate and artifactsWe're still superiors

And as for understanding

Lie, rape, steal and murder

To make the night realizeCrush the system

Make your contributions mine

Pour out and will you get

This strong as they've become You sat in silence, hear a voice

How far are we ready to take this

You sat in silence, hear a voice

Before it all crumblesLie, rape, steal and murder

Smiling I plot your pain

Can I turn up the TV?

Exploding sympathy, farewell man

I trust we part our companyWe're still superiors

And as for understanding

Lie, rape, steal and murder

To make the night realizeCrush the system

Make your contributions mine

Pour out and will you get

This strong as they've become You sat in silence, hear a voice

How far are we ready to take this

You sat in silence, hear a voice

Before it all crumblesLie, rape, steal and murder

Smiling I plot your painYou sat in silence, hear a voice

How far are we ready to take this

You sat in silence, hear a voice

Before it all crumbles
