

# Harmony to My Heartbeat

Sally Seltmann

Dreams that come and go  
This is one that I found forever I know  
Been crossing my fingers and always hoping for it to come true

Waiting for the train  
I can see a face in the distance again  
Got a little dream that's become a friend and a reality

And I'm running just as fast as I can to tell you the news  
We can do this together, we can, yeah me and you  
When you hold me I can see  
This is exactly where I wanna be  
You're the harmony to my heartbeat, baby

Dreams that come and go  
But I just kept doing what I loved, even though  
All I ever wished for was that of breath, running so slow

I found the lock and the key  
Now I can be everything I've wanted to be  
Got a little dream that's become a friend for the melody

And I'm running just as fast as I can to tell you the news  
We can do this together, we can, yeah me and you  
When you hold me I can see  
This is exactly where I wanna be  
You're the harmony to my heartbeat, baby

Harmony to my heartbeat, baby

When you hold me I can see  
This is exactly where I wanna be  
You're the harmony to my heartbeat, baby

Harmony to my heartbeat, baby  
You're the harmony to my heartbeat baby

When you hold me I can see  
This is exactly where I wanna be  
You're the harmony to my heartbeat, baby
