

It's a Disaster

OK Go

Crash and burn, crash and burn, crash and burn
(Crash and burn)
Patience is the hallmark of the old and the infirm
To live to learn, live to learn, live to learn
(Live to learn) Out lived their lust and traded want in for concern
Singing that's all right
Yeah, that's all right
Aw, that's all, all, all So, you come on down, come on down, come on down
(Come on down)
Get out your pestilence and vice and pass them around
And blow this town, blow this town, blow this town
(Blow this town)
Jump off this ship before the shit just runs aground Singin' that's all right
Aw, that's all right
Aw, that's all, all, all, all but It's a disaster
It's an incredible mess
But it's all we've got now
Yeah, it's all we got Howling with laughter
Panic, alarm and distress
But it's all we've got now
Yeah, it's all we got Head or tails, heads or tails, heads or tails
(Heads or tails)
You dumb enough to break the mold or smart enough to fail?
Oh, happy trails, happy trails, oh, happy trails
(Happy trails)
Can't beat a little bit of envy in your sails Singing that's all right
Yeah, that's all right
Oh, that's all, all, all, all but But it's a disaster
It's an incredible mess
But it's all we've got now
Yeah, it's all we got Howling with laughter
Panic, alarm and distress
But it's all we've got now
Yeah, it's all we got It's a disaster
It's an incredible mess
But it's all we've got now
Yeah, it's all we got Howling with laughter
Panic, alarm and distress
But it's all we've got now

Yeah, it's all we got It's a disaster
It's an incredible mess
But it's all we've got now
Yeah, it's all we got Howling with laughter
Panic, alarm and distress
But it's all we've got now
Yeah, it's all we got Yeah, it's all we got
