

# Star of Bethlehem

## Tanglewood Festival Chorus

What are you waiting for? She's here  
She's a star, somewhere in the night time sky Yo eh, oh eh, oh eh, oh  
Yo eh, oh eh, oh eh, oh  
Yo eh, oh eh, oh eh, oh  
Yo eh, oh eh, oh eh, oh The snow has come down on top of everything  
The town is alive and well without you  
The lights, they peer out of the leafless trees  
And you won't be alone, I am beside you Yo eh, oh eh, oh eh, oh  
Yo eh, oh eh, oh eh, oh  
Yo eh, oh eh, oh eh, oh  
Yo eh, oh eh, oh eh, oh True love, the stars in the sky illuminate below  
The light is the sign that love will guide you home  
The stars in the sky illuminate below  
If the world were to die the light will guide you Tears spilling out across a dead-end street  
Your house is a lonely box that holds you  
A star, bright and loud, is in dire need  
Of that fear, it is an empty fear inside you Yo eh, oh eh, oh eh, oh  
Yo eh, oh eh, oh eh, oh  
Yo eh, oh eh, oh eh, oh  
Yo eh, oh eh, oh eh, oh True love, the stars in the sky illuminate below  
The light is the sign that love will guide you home  
The stars in the sky illuminate below  
If the world were to die the light will guide you The stars in the sky illuminate below  
The light is the sign that love will guide you home  
The stars in the sky illuminate below  
If the world were to die the light will guide you True love, the stars in the sky illuminate below  
The light is the sign that love will guide you home  
The stars in the sky illuminate below  
If the world were to die the light will guide you The stars in the sky illuminate below  
The light is the sign that love will guide you home  
The stars in the sky illuminate below  
If the world were to die the light will guide you True love, the stars in the sky illuminate below  
The light is the sign that love will guide you home  
True love, the stars in the sky illuminate below  
If the world were to die the light will guide you True love, the stars in the sky illuminate below  
The light is the sign that love will guide you home  
True love, the stars in the sky illuminate below  
If the world were to die the light will guide you She's a star
