## Naughty Boy

Red door ends the driveway on the street where we met  
I take a thousand memories on the road with me  
So we never forget  
It's been a good year, will be a long day  
Before we lay our heads down to rest  
And if those tears come rolling down  
I'll pull you close to me  
And tell you we'll be back there again Won't be a long time, time  
Won't be a long time  
Won't be a long time, time  
Won't be a long time Till we get back home  
Till we get back home  
Till we get back home  
Till we get back home  
Till we get back home  
Till we get back home We've had good times, it's been real love  
And I know it's hard to move on  
But don't place your sentiments in the things we left  
It's when we're together, we're home Won't be a long time, time  
Won't be a long time  
Won't be a long time, time  
Won't be a long time Won't be a long time, time  
Won't be a long time  
Won't be a long time Till we get back home  
Till we get back home  
Till we get back home  
Till we get back home  
Till we get back home  
Till we get back home
