

# Slow Down

## Simplified

lovely, unbelievable white heat  
I said, beauti-ful beyond compare  
and I got the shivers, from the chills you gave me  
and now I'm slowly, sliding off my chair

now I'm feeling, slight intoxication  
lost in, the way you swing your hips  
in my mind, over and over I wonder,  
how long, 'til I taste your lips

now if I, gave myself would you love me, yeah  
said if I, gave it all would you take it,  
could you take it, now feel it

sexy, smiles from across the bar room  
you make my head pound, can't help watching you  
I got to slowdown, to keep my head in this game  
it feels so good, to know you want me too

now if I, gave myself would you love me, yeah  
said if I, gave it all would you take,  
could you take it, now feel it

lookin' up lookin' down as the world goes round  
thinkin' 'of you while I lick this town  
drivin' home all alone, so much to say  
no I love it when you act that way  
'cause you treat me fine,  
always on my mind,  
made me think I found my way this time  
drivin' home it's been a long way,  
tell me that I found true love today

and if I, gave myself would you love me, yeah  
said if I, gave it all would you take it,  
could you take it, now feel it

now if I, gave myself would you love me, yeah  
said if I, gave it all would you take it,

could you take it, now feel it

and you love and you love  
and you love and you love  
and you love and you love  
and you love and you love  
said now if I...
