Godhead

Feeder

We are the chosen
We are the few
We were sent here
To give guidance to our youth
We are the future
We are the face
So let's come together
Be as one today
We did it all for love
Just so you could feel the love
Love is a fire
Love is a flame
We are sent here
To be tested once again
Settle persuasion
This is the time
As we come together
One step out of line
We did it all for love
Just so you could feel the love
We are the chosen
We are the few
We were sent here
To give guidance to our youth
You are the future
You are the face
So let's come together
Be as one today
We did it all for love
Just so you could feel the love
We did it all for love
Just so you could feel the love
