American Nightmare

Vampires Everywhere

She's a cyanide on the tip of your tongue
A happy trigger on a loaded gun
She looks so sweet
She's so numb, yeah
She's got her middle finger pointed at your bro
Don't look in her dead eyes, one look will hypnotize

She's an American Nightmare
She'll bring you to your knees
She's an American Nightmare
She'll watch you bleed
Now get on your knees
Get on your knees
Get on your knees
She'll watch you bleed

She's a heroine on the edge of your heart
A dull dagger made of dollars and posies
She's the faintest notion
She's a vile misfortune
Yeah she's poison on the tip of your tongue
Don't look in her dead eyes, one look will hypnotize

She's an American Nightmare
She'll bring you to your knees
She's an American Nightmare
She'll watch you bleed
Now get on your knees
Get on your knees
Get on your knees
She'll watch you bleed

She's an American Nightmare
She'll bring you to your knees
She's an American Nightmare
She'll watch you bleed
Now get on your knees
Get on your knees

Get on your knees
She'll watch you bleed
