

Do It For Love

Alesha Dixon

I used to fight hard
Life was like a hustle in the school yard
Doing it for myself is what it taught me
Nothing is impossible
Impossible to breathe is where you left me Now that I leave it all behind
Baby, can't you see?
I'm in a different state of mind
Felt the beat was changing
When you came into my life
For finally I see the life
From deep inside the underground I rise
Now I
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love When you showed up
Powered over me to make my heart knock
Giving me your reason that is so real
My love for you, unstoppable
Unstoppable this feeling that you gave me Now that I leave it all behind
Baby, can't you see?
I'm in a different state of mind
Felt the beat was changing
When you came into my life
For finally I see the life
From deep inside the underground I rise
Now I
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love I like [?]
The flash got me flying high
And we doing it for love
Been doing it to win
And now that we're together

[?] doing it all for him
We can talk about the money
Talk about the fame
[?] broken promises
I do it on the game
For the one who's got me found
I never let you go
Never let you downx2
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love
Do it, do it, do it for love
