

# Mo' Better Blues

Luke James

Hugging you feels like nobody else  
My love for you melts through your chastity belt  
Feels so good so warm  
Though I know I'm causing you harm  
Mo better blues  
Playing for you  
I know that I got to choose  
There's just things about you I can't lose  
Mo better blues  
More  
Mo better Mo better  
More  
Mo better Mo better  
Your so cute I love what you've got on  
The cool in you turns me on  
So different too you're so much more fun baby yeah  
That downtown street walking that ??we're talking  
Now we're upstairs in my love department  
Red?.red light, red light turns to blue  
Now I'm loving you  
Mo better blues  
Singing that shit to you  
I know that I got to choose  
But the both of you get me through

Mo better blues  
Mo better blues  
Singing to you  
I know that I got to choose  
Bu what if I ent ready to  
Well mo better blues  
More  
Mo better mo better  
More  
Mo better mo better  
More  
Mo better mo better  
More  
Mo better mo better

Yeah  
You say it's you or it's never been  
I agree spread your wings be free  
Don't you want more mo better mo better  
Yeahh and if its love it'll give in  
And its love that you're feeling  
Don't take that away  
Don't you want mo better  
Hmmm yeahh together together don't take that away  
Don't you want mo better oooo
