King of Pain

Lullacry

From the start to the end
Destroyer
I curse, I offend
A nightmare come trueI'll bend you out of shape
World on fire
With death, can't escape
The end is completeI am the stalker inside you and I justify
The darkest parts of your twisted nature(Chorus)
I, world of demise
My work is done
My work is done)
Master of lies
King of pain
(King of pain)
World of demise
My work is done
(My work is done)
Master of lies
King of pain
(King of pain)The mark of the unholy
Hand of doom
See me, crawing slowly
Snake on your lapI am the stalker inside you and I justify
The darkest parts of your twisted nature(Repeat chorus)King of pain
King of pain(Repeat chorus)King of pain
King of pain
