Say That You Love Me

Loudon Wainwright III

Told you I love you
Talked on the [Incomprehensible]
You'd said that you like me, feel like a fool
Say that you like me, that's not enoughSay that you love me, I'm calling your bluff
Say that you love me, say that it's true
Say that you love me and I said it to youI don't want a new bow tie
I don't want a new dress
It's time to admit it
Come on, it's time to confessSay that you love me, open your heart
Three simple words, least it's a start
Come on, say that you love me, say that it's true
Say that you love me and I said it to youWell, it's been said before and you can say it again
I got to be more than just one of your friends
I must know you love me, there must be no doubt
Open your heart, open your mouthSay that you love me, say that it's true
Say that you love me and I said it to you
Say that you love me, say that it's, say that it's true
Say that you love me and I said it to you
