

# Born to Die

## Donna Summer

Just a baby  
on a doorstep  
it's how they found me  
cold and hungry  
raised on hatred  
fed by strangers  
as a young girl  
I often wondered Am I born to die  
never having lived  
am I born to die  
without love  
in my life People push me  
knock me down  
my foster parents  
kicked me around  
they brought me up on  
loneliness  
I never had me  
a single friend Am I born to die  
never having lived  
am I born to die  
without love  
in my life Must be someone  
in this world  
who can save me  
from myself Or am I born to die  
never having lived  
am I born to die  
without love  
in my life Am I born to die  
never having lived  
am I born to die  
without love  
in my life
