

Lost Again

Yello

I told you lady
Take me for one day
Please don't ask any questions
You know I can stay I wish the wind was cold
I wanna hold you, baby, hold
Only in your arms I'm lost
Don't look at me I wish the wind was cold
I wanna hold you, baby, hold
Only in your arms I'm lost
Don't look at me I know this is crazy
Let's have a last drink
Don't ask where I come from
And don't ask what I think
I leave you, lady
Full of desire to stay I wish the wind was cold
I wanna hold you, baby, hold
Only in your arms I'm lost
Don't look at me I wish the wind was cold
I wanna hold you, baby, hold
Only in your arms I'm lost
Don't look at me I told you
Take me for one day
Don't ask any questions
You know I can stay I wish the wind was cold
I wanna hold you, baby, hold
Only in your arms I'm lost
Don't look at me I wish the wind was cold
I wanna hold you, baby, hold
Only in your arms I'm lost
Don't look at me I wish the wind was cold
I wanna hold you, baby, hold
Only in your arms I'm lost
Don't look at me
