Girl I

Cityside

Girl I ...
I wanna kiss and hug you
Girl I wanna love you
I wanna be the one you need

Girl I
Said I'd do anything for you
And girl I adore you
So won't you come and stay with me

I said I wanna be
That special kind of man the only one who can
The only one who's got a special place in your heart

The one that you run to when you're scared
The one that you come to when no one is there
I'll be..... your everything

Girl I ...
I wanna kiss and hug you
Girl I wanna love you
I wanna be the one you need

Girl I
Said I'd do anything for you
And girl I adore you
So won't you come and stay with me

And girl I know you've been through some very tough and difficult things
But all I really wanna give you is my loving and a diamond ring
I wanna be the one that you can trust
The one you tell your friends you think you love
I'll be ..... your everything

Girl I ...
I wanna kiss and hug you
Girl I wanna love you
I wanna be the one you need

Girl I

Said I'd do anything for you
And girl I adore you
So won't you come and stay with me

Girl I ...
I wanna kiss and hug you
Girl I wanna love you
I wanna be the one you need

Girl I
Said I'd do anything for you
And girl I adore you
So won't you come and stay with me

And girl I....
