

Time O The Signs

Terrorvision

I'm high up on your cross and I'm burning, burning
I couldn't give a toss I'm just a worm that's turning
Radical, oh so radical
Radical, oh so radical
I'll fight for your cause saying something's a disgrace
But if the trend changes then so can my face
That's comical, no now I'm cynical
That's comical, no now I'm cynical
Can't go under but it's time to decide
Time to decide
Can't go over 'cos its much too high
Sign of the times
I'm a martyr to my needs, I'm not a martyr of war
I'm not looking for sympathy I'm in search of applause
Well that's typical, oh so typical
That's typical, oh so typical

Can't go under but it's time to decide
Time to decide
Can't go over 'cos its much too high
Sign of the times
I wouldn't say I'm selfish, I'd just say I'm concerned
Politically motivated, help the flag get burned
Hey that's topical, I'm very topical
Hey that's topical, I'm very topical
Now I sing about love and I sing about castles
I've forgotten all my past and it's right on hassles
Hypocritical? No, it wasn't critical
Hypocritical? No, it wasn't critical
Can't go under but it's time to decide
Time to decide
Can't go over 'cos its much too high
Sign of the times
