

Saint Peter

[Michelle Malone](#)

My mother said go get the doctor
Your daddy's burnin with fever again
the ink from the presses, the smoke and the stresses
I don't think that he'll see the spring
I don't think that he'll see the spring Oh saint Peter will you know him when you see him
Will you call him by the name that his mother gave
will you put your arms around him
bathe him in your cool fountain
make it so he cant remember the pain He's talking about Jesus and angels
coming to take his soul from us today
and riding a team of white horses to heaven
all we can do now is pray
all we can do now is pray CH Oh, when will I see him again, will I see him again, Oh, will I
Oh, when will I see him again, will I see him again, Oh, will I ... Oh Daddy went later that evening
While I was crying out on the highway
I never got to tell him goodbye or how I loved him
And I wish that I could to this day Oh, when will I see him again, will I see him again, Oh, will I
Oh, when will I see him again, will I see him again, Oh, will I ... Oh
