

Piss the Bed

Drunk Mums

Good hair colour, and then wanked. You got the olive skin, just a big ol list that doesn't end. Well, I like ya. But
there's more for me to look at.

see I just left another girl
and I been tellin' myself shoulda learned something from that, from that!
awh from that.

I got, commitment anxiety when I'm staring at you
and I just wanna slow down, pretendin' I don't want you when it's not true.
It's not true.

Let's just see how things go, maybe I'll do something wrong, maybe you'll never know.

maybe you piss the bed after a big night out on the drink
maybe you don't always agree with what I think
you like bad tv shows
some of your friends are annoying hoes
I don't even knows.

I got, commitment anxiety when I'm staring at you
I just wanna slow down, pretending I don't want you well I got the...
commitment anxiety when I'm staring at you
and I just wanna slow down, pretending I don't want you
when it's not true
when it's not true
true
true
