

# Wanting Out

**Michelle Branch**

I turned around,  
And there you were  
Standing in front of me  
I can't ignore the fact  
That you were back for more It's kind of funny  
When you think about it  
It's kind of hard to agree to disagree  
But now we're back to the start  
And I'm caught no buts  
Like you wanted me to beg So take me away  
Cause I don't want to be there  
I should learn to speak up  
When enough is enough  
And I'm wanting out and I'm wanting out I saw you smiling in that photograph  
And I remember how we used to laugh  
But that was then, forgive, forget It's just easiest So take me away  
Cause I don't want to be there  
I should learn to speak up  
When enough is enough  
And I'm wanting out and I'm wanting out and I don't know if  
I can get through this  
And I never knew that before  
You make up your mind  
And suddenly find  
You're wanting more So take me away  
Cause I don't want to be there  
I should learn to speak up  
When enough is enough  
And I'm wanting out And I'm wanting out So take me away  
Cause I don't want to be there  
I should learn to speak up  
When enough is enough  
And I'm wanting out And I'm wanting out [Repeats]
