Big Sky

Matt Stevens

Big sky, I?m gonna hurt you
Big sky, you?ll remember this
Big sky, up above the rain
How can I ever put a stop to it
Look you in the face again?
Big sky, I?ll never let you go
Big sky, baby, I told you so
Big sky, look at this swollen pride
I got so busy looking out for you
When were you by my side?
When I?m breathing, when I?m sleeping
I can think of nothing else
All my longing, all my waiting
All the things you never felt
All my weeping, all my wailing
All my standing on the shelf
How am I ever gonna get through this
Back to myself again?
Big sky, I never knew you
Big sky, let me down again

Big sky, giving you the blame
How can I ever put a stop to this
Look you in the face again?
When I?m breathing, when I?m sleeping
I can think of nothing else
All my longing, all my waiting
All the things you never felt
All my weeping, all my wailing
All my standing on the shelf
How am I ever gonna get through this
Back to myself again?
Won?t you say it isn?t so
Watch me falling, see me falling
I slip through the vortex of the sky
Darkness and light
It?s what?s inside
Darkness and light
It?s what?s inside
