

# You Got Me Wrapped Around Your Little Finger

[Beth Rowley](#)

You got me wrapped around your little finger  
If this is Love, it's everything i hoped it would be  
You got me wrapped around your little finger  
You will see, By my words just how much you mean to me  
When we kiss, It's as if our lips agree  
that we were meant to be  
When we touch, It's too much  
Oh the sparks that fly, Are lighting up the sky  
You got me wrapped around your little finger  
If this is Love, it's everything i hoped it would be  
You got me wrapped around your little finger  
If this is Love, It's everything that i've been dreaming of
