

Come Back Bon Jovi

New Found Glory

Tell me whatever happened to the radio?
Do they still play the songs you wanna hear on the stereo?
Do you still like the bands you liked a year ago? Would you still like me if we wouldn't be on the radio
Like me, if we were on the radio, like me, or are they just played out?
Tell me, whatever happened to the radio?
Do they still play the songs you wanna hear on the stereo?
Do you still like the bands you liked a year ago?
Would you still like me if we wouldn't be on the radio?
Like me if we were on the radio, like me or are they just played out now?
Tell me, Tell me, whatever happened to the Radio?
Tell me, Tell me whatever happened to the Radio?
