Brand new start

Palomine

When I think of all of the things He's doin' for me
It makes me stand in wonder at what He's making me to be
Tryin' to walk through straight but getting turned around
Always makin' my Master take a backseat and wait around
But I praise the Lord for giving me
A brand new start each day
And I praise His blessed name
For guiding me all along the way
If He didn't, I wouldn't even try
Well maybe you can't see a change
You know these things can take time
But now that I've found Jesus
Well He's given me peace of mind
Now every day's just a chance
To grow closer to Him
I may not win all the battles
But it's a victory in Him
So I praise the Lord for giving me
A brand new start each day
And I praise His blessed name
For guiding me all along the way
If He didn't, I would surely die
