Eez-Eh

Kasabian

I ain't easy
And I make you mad
Least I ain't sleazy
I'm just trying to put the world to right
If you want to, I'll take you out
And I got the feeling that I'm gonna keep you up all
Gonna keep you up all
Gonna keep you up all nightTired of taking orders
Coping with disorders
The wrong men have the power
It's turning my milk sour
We're tired of taking orders
Coping with disorders
The wrong men have the power
It's turning my milk sour
Turning my milk sour
Turning my milk sourI ain't easy
And I make you mad
Least I ain't sleazy
I'm just trying to put the world to rights
And if you want to, I'll take you out
'Cause I got the feeling that I'm gonna keep you up all nightI ain't easy
But I ain't that bad
No rhyme or reason, I'm just trying to set the world alight
You got problems, well so have I
And I got the feeling that I'm gonna keep you up all
Gonna keep you up all
Gonna keep you up all nightThere's cobras in the mosh pit
Finally we lost it
Everyday is brutal
Now we're being watched by Google
Gotta keep it simple
Sending out a signal
Every once I'm brutal
Now we're being watched by Google
Being watched by Google
Being watched by GoogleI ain't easy
And I make you mad
Least I ain't sleazy

I'm just trying to put the world to rights
And if you want to, I'll take you out
'Cause I got the feeling that I'm gonna keep you up all nightI ain't easy
But I ain't that bad
No rhyme or reason, I'm just trying to set the world alight
You got problems, well so have I
And I got the feeling that I'm gonna keep you up all
Gonna keep you up all
Gonna keep you up all night
