Lost In Your Love

Lila McCann

I couldn't name
The last three songs
Or what that
Last exit sign saidI guess I'm hypnotized
By those little white lines
And tonight it's playin'
Back in my headAnd there's no way
To concentrate
On anything but youAnd I don't know
Just where I'm goin'
All I wanna do is getLost in your love, all mixed up
So completely turned around
You've got me in so deep
That I can't find my way outBut I know I've found
The place where I belong
When we touch
I get lost in your loveI thought I had all the lines
On the map picked out
To show me where to goAnd I made up my mind
I was sure this time
I'd play it safe and take it slowBut now, I'm flying up so high
So fast I can't let go
The first time I stepped on this ride
I guess I should've known that I'd getLost in your love, all mixed up
So completely turned around
You've got me in so deep
That I can't find my way outBut I know I've found
The place where I belong
When we touch
I get lost in your loveI'm so lost in your love, all mixed up
So completely turned around
You've got me in so deep
That I can't find my way outBut I know I've found
The place where I belong
When we touch
I get lost in your loveI'm so lost in your love
I get lost in your love
In your love
