High

Stabbing Westward

I can't hide it, I can't fight it
When every nerve is cryin' out for release
I can't recapture, little rapture
That passion that is burning inside meI've lost so much chasing the perfect high
I've lost so muchI've never been as high as I was with you
I've never been so high
I've never been as high as I was with you
I finally realize, love's a perfect high
Love's a perfect highThis hunger consumes me
I lost my soul as you came rushing in my veins
Pathetic little junkie
But I'm the whore that needs it one last timeAnd I've lost so much chasing the perfect high
I've lost so muchI've never been as high as I was with you
I've never been so high
I've never been as high as I was with you
I finally realize, love's a perfect high
Love's a perfect highNo, I've never been as high as I was with you
I've never been so high
I've never been as high as I was with you
I finally realize, love's a perfect high
Love's a perfect high
Love's a perfect high
This love's a perfect high, yea
Love's a perfect high
