Big Problems, USA

The Max Levine Ensemble

You've always got your place in the sun
when you go down to the beach
There's girls swinging their hips
Boys having their fun, when you go down to the beach
Qnd mom and pop have got a spot
Yeah down by the beach
It's where they grew up
And it's never been touched, not since
Not so long as the sun's shined down on the beach
When you're driving your car, down by the beach
Fueled by contamination
You'll see washing up down by the beach
A sleeker new sensation
And they're closing up shop
Down by the beach
Now that the clear blue waves have sailed
Now that they're never coming back
Never coming back
Not so long as the sun shines down to the beach
Dark waters on the offshore swelling
USA, I think we got a little problem
We overshot and now it's only spreading
Down current from some blind expansion.
USA, I think we've gone and crossed a line again
Dark waters only know about spreading
Fool me once and it's a shame I get it
Fool me twice, and it's repeat behavior
USA, i think we've got a big problem
USA, we've got some big fucking problems
Won't be long before everybody's got one
