

# So Down Low

## The Elwins

So down low  
I've been getting so down low  
I've been getting deeper and down until everything's underground you know So deep down  
There's no way to turn around  
There's no way to get back to ground  
And be up cause i know i'm going down So down low  
I've been getting so down low  
I've been getting deeper and down until everything's underground you know Hanging  
Hiding from the cold  
You were telling me stories that you'd told  
I didn't listen  
I didn't give it thought ooooh So down low  
I've been getting so down low  
I've been getting deeper and down until everything's underground you know So deep down  
There's no way to turn around  
There's no way to get back to ground  
And be up cause i know i'm going down Holding onto something good  
'top of 350 5th Avenue  
You were Anne  
I was Kong  
And it went oh so wrong ooooh I had you in my grasp  
I knew it wouldn't last  
I had you but i fell so fast  
I'm falling down below  
What does it mean ooh  
I'm falling but you move so slow ooooh So down low  
I've been getting so down low  
I've been getting deeper and down until everything's underground you know So deep down  
There's no way to turn around  
There's no way to get back to ground  
And be up cause i know i'm going down So down low  
I've been getting so down low  
I've been getting deeper and down until everything's underground you know
