

# Bodies Adjust

## Thunderbirds Are Now!

It's so hot that we might melt.

It's so hot that we drink ourselves.

And all of this sweat is making us stir.

Bodies adjust to the temperature. And it's so cold that we might freeze.

You're so cold, you're such a tease.

And all of this ice is making us stir.

Bodies adjust to the temperature. It's so hot that we might melt.

It's so hot that we drink ourselves.

And all of this sweat is making us stir.

Bodies adjust to the temperature. And it's so cold that we might freeze.

You're so cold, you're such a tease.

And all of this ice is making us stir.

Bodies adjust to the temperature.
