Who wants to tell me i can't give a big fuck in to
the world?
who ya think you are?
you are just another p.o.s. like me
feel the sickness that i have inside
did i say you matter, well i guess i lied
who wants to tell me i can't give a big fuck in to
the world?Don't try to save my life
So you can feel aliveits no body's right to tell me how im suppose ta
feel
get away just ta fool
you dont even know whats real
see how fucked up i am inside
dont even try to dissect my mind
its no body's right to tell me how im suppose ta
feelDon't try to save my life
So you can feel aliveyou can feel
