

# Hamburg (turtle Rework)

## Mt. Wolf

The city can't  
what the mountains will find  
a beautifully close to astound  
but i'm about the must  
now we are the one for the kind of tears that lover's got  
and you will find  
to all the kind of tears that lover's go  
that you want you want to lose  
by grip  
you and i my hold on you fibers break and metal shake  
the lands of time  
that i've lost entwined for the kind of tears that lover's got  
and you will find  
to all the kind of tears that lover's go  
that you want you want to lose  
by grip  
and you will find  
to all the kind of tears that lover's go  
that you want you want to lose  
by grip  
you and i lose my grip  
as i lose my hold of you
