

# Gonna Make You Love Me

[Ryan Adams](#)

Riot on the streets, the touch beneath the sheets  
It's only gonna make you love me more  
The cops they got the guns, the night destroys the sun  
It's only gonna make you love me more This old world, well, it was mine to take  
Faith can keep you warm, but I'll teach you how to shake  
And I'll come to you like a little girl  
It's only gonna make you love me more Moonlight on the beach, sweet amphetamines  
It's only gonna make you love me more  
Bottles and the cans, the idiots go dance  
It's only gonna make you love me more This old world, well, it was mine to take  
Faith can keep you warm, but I'll teach you how to shake  
And I'll come to you like a little girl  
It's only gonna make you love me more They say that love is hell but I've been laughin' ever since I fell  
It's only gonna make you love me more  
The Lord will have his way but I'm just a call away  
It's only gonna make you love me more This old world, well, it was mine to take  
Faith can keep you warm, but I'll teach you how to shake  
And I'll come to you like a little girl  
It's only gonna make you love me more
