Reptile

Lisa Germano

Extraterrestrial
Down on the corner
So unfamiliar
And making me wonderAll of the robots
Around it are dying
Craving emotions
And constantly fightingThe sun came out
And it didn't go away
No, it didn't
It didn't go awayExtraterrestrial
Counting his fingers
Handing out pamphlets
Of light to us sinnersThe sun came out
And it didn't go away
No, it didn't
It didn't go awaySo unfamiliar
Making me wonder
'Cause it says that God
Is a soul masturbatorHigher vibrations
Frequency flying
Living in light
'Cause the light freaks out dyin'The sun came out
And it didn't go away
No, it didn't
It didn't go awayThe sun came out
And it didn't go away
No, it wouldn't
It wouldn't go away
