Tonight He Grins Again

Savatage

Night time again
Seems I'm my only friend
Wander the streets alone
The lost in search of his ownOnce again I've played the clown
Used my friends and let them down
Walk the streets just staring out
Late at night the strange come outTime, time, time again
I'm just looking for a friend
But no one seems to be around
Just this monkey that I've foundStill he is my only friend
And tonight he grins again
Tonight he grins again
Oh yeah
Tonight he grins againIt's cold this pain
It's burning inside my veins
I walked away
Shadow of Dorian GrayOnce again I've played the clown
Used my friends and let them down
Walk the streets staring out
Late at night the strange come outTime, time, time again
I'm just looking for a friend
No one seems to be around
Just this monkey that I've foundStill he is my only friend
And tonight he grins again
Tonight he grins again
Oh yeah
Tonight he grins againOoh
Livin' on the edge
