

# Tonight He Grins Again

## Savatage

Night time again  
Seems I'm my only friend  
Wander the streets alone  
The lost in search of his own  
Once again I've played the clown  
Used my friends and let them down  
Walk the streets just staring out  
Late at night the strange come out  
Time, time, time again  
I'm just looking for a friend  
But no one seems to be around  
Just this monkey that I've found  
Still he is my only friend  
And tonight he grins again  
Tonight he grins again  
Oh yeah  
Tonight he grins again  
It's cold this pain  
It's burning inside my veins  
I walked away  
Shadow of Dorian Gray  
Once again I've played the clown  
Used my friends and let them down  
Walk the streets staring out  
Late at night the strange come out  
Time, time, time again  
I'm just looking for a friend  
No one seems to be around  
Just this monkey that I've found  
Still he is my only friend  
And tonight he grins again  
Tonight he grins again  
Oh yeah  
Tonight he grins again  
Ooh  
Livin' on the edge
