Glass

Julian Casablancas

I don't believe it
I won't believe in it
I'm not sad
I understand
That's how it goesTake it easy
There's no time to be mad
That's their job
blood on their teeth
death on their mindPretty baby
please just get out of the way
Where it's safeEyes will follow you
Weapons can't break through
Tears will swallow you
You'll always see right throughBulletproof glass
Bulletproof glass
Bulletproof - you won't have any trouble now
But who knows
But who knowsPlease don't deceive me
I'm just so easily fooled
There's some things
they do not want the answers toDon't wanna bring all that up
But they keep leaving it out
what to do?We'll just let it be
until they all leaveBulletproof glass
Bulletproof glass
Bulletproof - you won't have any trouble now
But who knows
But who knows(solo)If you wanna know somebody
Might take a quick look at
Their best friends
Diamonds are hers
The dog is hisYou can lie to yourself
But don't lie to me
That's what they wantDominance and loyalty
Romance with security
Stay behindBulletproof glass
Bulletproof glass
Ohhhh Ohhhh
