

# Moonstruck

## Sinkane

Each night, outside of Lowlands  
Walking home, alone,  
I know which side that I'm on  
A little drunk, little dulled, little dumb garÃ§on  
Confused, I look up, doubting  
"What's my song?" yet alone  
Without a song of my own  
No, I don't, I don't even got a song  
Assumed you'd come and show me  
But I learned soon  
You don't even come outside on your own  
No, you don't, you don't even come outside  
Yea, soon it goes to show me  
We're alone, without love,  
'Til we come outside of the dark  
No, we don't, we don't even got a song  
Ma lune, je t'aime  
Your face and pull, je t'aime
